Physique Movie

CALENDAR

Tom Courtney is the model holding the Cine-Vuer.

Tom is 20, comes from Tulsa Oklahoma. He appears in the film "Devil & The Sissy" Which is released the week of April 26, 1964 thru May 2, 1964.

He also appears in other AMG films to be released at a later time.

In the film "Cop and the Pursesnatcher" he plays the role of a police sergeant. That is film C 27 12 minutes, it costs \$12 in 8mm and \$18 in 16m. Stills from the film are found on page 12 of catalog UP. That catalog page costs 25 c. Individual 4x5 stills of all films available.

IF YOU DON'T HAVE A PROJECTOR YOU MAY WANT TO PURCHASE THE MANSFIELD CINE-VUER PICTURED ABOVE: \$12.95.

This electrically lighted vuer handles all of the 8mm films we offer. We have sold hundreds of them ourselves and everyone seems to be pleased. One advantage is that you can take the viewer with you and use it anywhere, and you can stop the films and study individual frames--an invaluable aid for artists.

Of course, we would much rather see you with a good projector because eventually you may get tired turning the vuer handle, but at least this will get you started. Don't hesitate to buy a good brand second hand projector from your camera dealer (such as a Revere, Bell & Howell and many others). Far better to have a good quality second hand projector than a tinny new one. If price is no object, in 8mm we would recommend the Fairchild sound projector--then you can add your own magnetic sound to even AMG films.

MUSIC WITH YOUR FILMS Many film collectors prepare magnetic tapes to play along with their physique films to make them more interesting. Honky-tonk piano fits many of the wrestling scenes admirably. Should you have a film with lousy wrestling, waltz music may be quite appropriate. The words of certain songs may add clever humour to your showings.

ORIGINAL SOUND: At the present time AMG has no plans to offer original sound on films--This would add tremendous both to production costs and to the ultimate cost of each film to the customer, and the gain would be very small. Most of the athletes should just be seen and not heard anyway. So if you want sound--please add your own!

WELCOME TO THE PHYSIQUE - MOVIE - OF - THE
WEEK CLUB ! You will note that in this calendar a new movie is
offered each week. There are no required purchases--order just the films you want!
SAVE 25% BY ORDERING FOR DELIVERY DURING FIRST WEEK OF ISSUANCE!

Whereas once a film has been issued you can order it at any time at the regular
price, if the orders placed for delivery during the one week the film is on special,
you save 1/4th of the cost. You can order one film or any number of films in
advance of their release dates with the understanding that they will be shipped to
you during the week of the special for that particular film.

STUDY THE CATALOGS TO LEARN THE CONTENTS OF THE FILM. You will
note that catalog pages have been listed for each of the films. These catalogs cost
25 cents each page (or any 15 for 15 cents each) The catalogs show many addition-
al scenes from the films and help you decide which movies will fit your needs. The
catalogs themselves are all available now so you have ample time to study them in
advance.

POSTAGE PREPAID BY AMG. We are glad to prepay the shipping cost of all
material sent to you. Of course we reserve the right to use the most economical
type mail or shipping. If you desire assured first class sealed mailing or air-
mail, then please include estimated postage (We will be glad to return a credit
slip for excess postage.)

8MM basic weight is about 1 1/2 ounces, (4 minutes.) Allow about one ounce
for each 4 minutes running time (Thus for 8 mins you should allow 4 ounces)

16mm basic weight is about 4 ounces for 100 ft (4 minute) size. Allow about
one ounce for each additional minute of running time.

First class postage in US 5 cents for each ounce. Foreign 1st class is 11 c for 1st
ounce and 7 c for each additional ounce.

Airmail in U.S. 8c an ounce up to 8 ozs (greater wts subject to zone rates, check
with post office). Trans-Atlantic airmail: 15c ea 1/2 oz. Trans-Pacific 25c ea
one-half ounce

FOREIGN CURRENCIES may be used at par value.

ADDITIONAL FILMS WILL BE RELEASED DURING THE YEAR and will be announced
in Physique Pictorial and in special bulletins which will be sent automatically to
anyone making a purchase of one or more films from this calendar during the year.

DEFECTIVE FILMS (other than those with an inherent defect in the negative which
has been indicated in bulletin) should be returned for replacement. However, please
do not return films damaged by faulty handling or projection equipment. With some
projectors it is necessary to run "green" (new) film through a couple of times before
it will run smoothly without skipping. All films we send out are new and have ne-
ver been run before.

PLEASE SEND YOUR EVALUATION OF EACH FILM as well as those of audiences
to whom you have shown the film. These are studied carefully and help us in crea-
ting new films and determining which should be released.

AMG IS CONSTANTLY IN PRODUCTION. The greatest bulk of the profit from
each film sold is earmarked for new production in which we are perpetually en-
gaged. Your suggestions and advice are always appreciated.

WRITE YOUR ORDER on any convenient sheet of paper, old sack etc, but be sure
to include your name, complete address, city, state, date, amount of money
you are sending and in what form, and a detailed list of items desired.

Write to ATHLETIC MODEL GUILD 1834 West 11th St.
Los Angeles 6, California.

AMG FILMS CURRENTLY STOCKED FOR IMMEDIATE DELIVERY. The films listed below and on the following three pages are stocked, ready to send out immediately your order is received. After the release dates noted, the other films illustrated in this calendar will also be stocked (available at the regular price noted).

It is possible to learn the general contents of these films by reviewing the little catalog pages listed for each film. Each catalog page costs 25 cents. (If you are purchasing 15 or more catalog pages, the price is then only 15 cents each.)

Films are NOT available for rental or on an approval basis. However, if at anytime a customer receives a film print with a defect not inherent in the film negative it will be cheerfully exchanged. We ask the film lab to check print quality closely, but now and then they do slip up.

Many of the films are reviewed in past AMG Bulletins, copies of which we still have a limited number of copies available. These include Bulletins 57, 59, and 60 available postpaid for 15 cents each.

Also the films are illustrated and discussed in various issues of AMG's own magazine Physique Pictorial. There 33 different issues of Physique Pictorial currently available costing 45 cents each postpaid by 1st class mail in the U.S. (The latest issue number as this calendar goes to press in Dec of 1963 is Volume 13 #2. An issue comes out about once each three months.) Send for as few or as many back issues as you wish.

When you order the films below it is a good idea to show both the Film Number and the Film name.
